

Product Release Notes V4.1

What's New in MLS-Touch | Prospects Mobile 4.1

We're excited to announce the release of MLS-Touch® (Prospects Mobile in Canada) version 4.1! The latest enhancements include our NEW CoreLogic Branding Center for seamless brand management across the CoreLogic ecosystem, the option to customize SMS and Email default text templates and enhanced Hotsheet functionality.

NOTE: This is a phased rollout starting Aug. 19th with full availability expected by Aug. 26th.

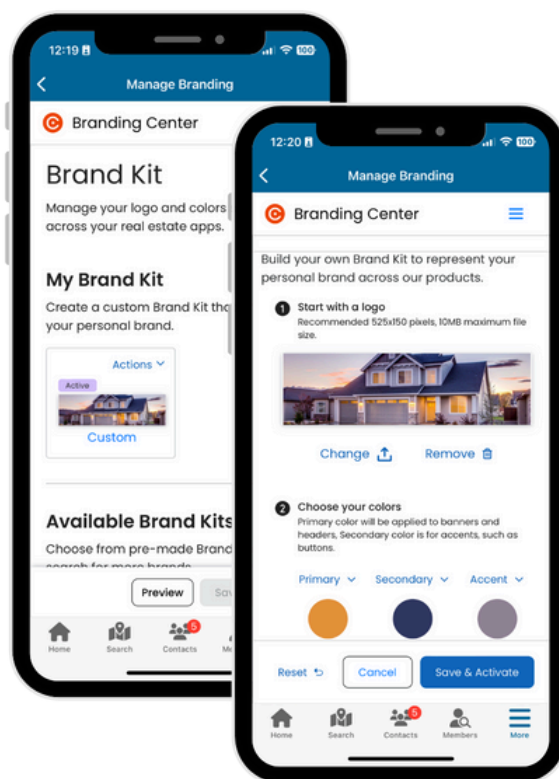

Experience the New CoreLogic Branding Center

Introducing the all-new CoreLogic Branding Center, the go-to solution for agents to effortlessly manage their brand and make a lasting impression.

Designed to enhance and replace Brand & Share™, this innovative feature offers seamless brand management capabilities across the CoreLogic ecosystem including, Matrix™ emails, OneHome™ client portal and the MLS-Touch/Prospects Mobile consumer app. This new feature allows agents to prominently display their logo, headshot, and brand colors where it matters most – right in front of clients!

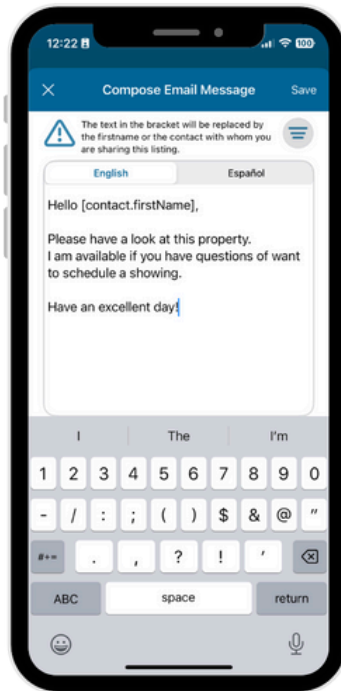

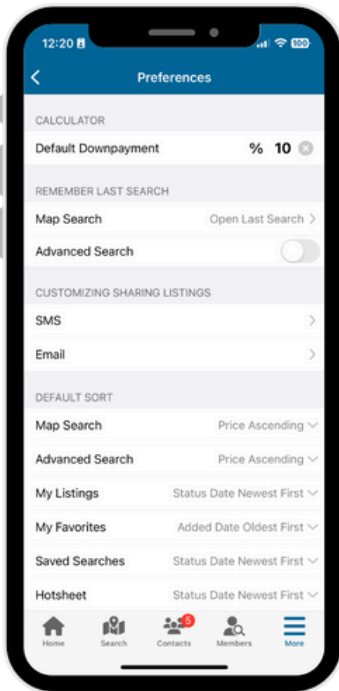

Find it in the More Menu > Manage Branding.

Watch this short video tutorial to [learn more](#).

NOTE: Configuration is required to activate the Branding Center and Matrix 12.4 is required to extend Branding Center capabilities to Matrix emails. Contact your CoreLogic Client Service rep for deployment info.

Enjoy Unmatched Flexibility With Customizable SMS and Email Templates!

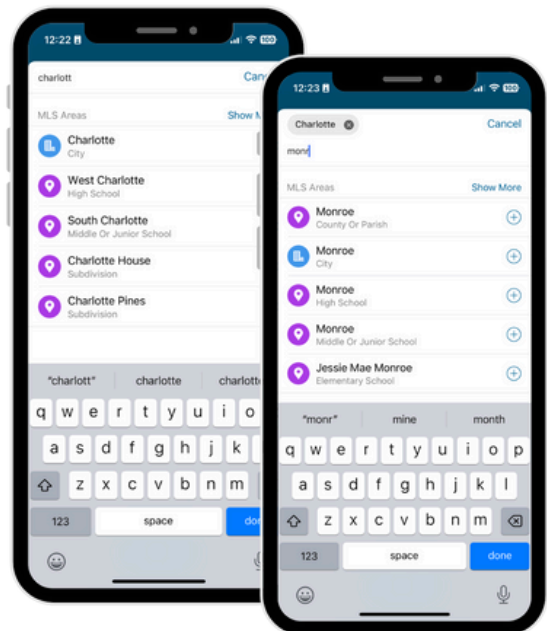

Get more flexibility than ever before. Agents can now easily personalize their SMS and default email text templates to suit their unique needs.

Go to Settings > Preferences to get started.

Discover the New & Improved Hotsheet!

Experience our enhanced Hotsheet feature, now allowing agents to search by any location criteria and the option to expand their results up to 20 locations - for even more comprehensive insights.

New Vision Pro Compatibility

Welcome to the future! The MLS-Touch/Prospects Mobile can now be used on Vision Pro devices for a truly immersive experience.

Coming Soon / Available to Select Testers Only

COMING IN Q4

- Manage your Prospects CRM Market Reports directly from your mobile device.
- New "Walk Property Lines" feature: real-time Augmented Reality parcel boundary visualization to explore properties further. (Available to US clients only - Realist® required.)

COMING IN 2025

- New AI-Driven Feature: input your listings faster and more efficiently with the power of CoreLogic's AI.
